

International Tax Case Kumospace

Note to Instructors

Kumospace is a free, online platform that creates an interesting virtual workspace that can enhance collaborative learning. It offers various features, including uploading recorded tutorials (when uploaded to youtube), whiteboard (chalk and talks), small group breakouts within one (or more) rooms, etc.

This [kumospace](#) offers you a chance to explore a room set up for the DIPCAT Intensive Study Programme. Feel free to have a look around, watch the videos. If you like what you see, why don't you create your own space for your students!
